MESSAGE FROM THE PRESIDENT

Dear Members:

We are slowly getting back to normal but are awaiting the final directions from Public Health.

Time to do some updates as best we can.

To start, the most trying issue is Board renewal. As of the next Annual General Meeting we will need a President, Vice-President, and Treasurer.

Currently we have no Vice-President, and we need to give Lynne a great deal of credit for taking on more than any of us have. Likewise Rion our Secretary has had to learn the job on the go as he is new to it all.

Our club sections have also had a difficult time.

Hatchery is facing upgrades to its infrastructure. Archery is having to deal with the loss of use of its indoor facilities and the revenue that encompasses.

Dorman Range has had to deal with building issues.

Henry Range is working at improving its berms to reduce noise. As well it has seen the area beside it logged.

We have been lucky to secure a number of government and private grants but with COVID it does not allow us to fully utilize them the way we would like.

The Board of Directors has had to handle a number of issues and getting back on track is next. The direction we take on many issues is driven by the Board and Membership. Without volunteers to take this on, the Club becomes directionless, and as a single organization will face a much more difficult future.

Each club section will update in much greater detail where they have been and where they are going as we face the coming year.

In Sportsmanship

Richard Thompson
President
